EDUCATIONAL & LEADERSHIP EXPERIENCE

► Clinical Teacher - Technical Theatre

Spring 2025

Terrell Independent School District.

- Designed and delivered standards-aligned instruction in technical theatre, including lighting, sound, and stage management
- Modeled industry-standard production practices such as cue sequencing, timing, and communication workflows to support student understanding of live performance systems
- Facilitated hands-on, production-based learning experiences where students assumed technical roles and solved real-world staging challenges
- Instructed students in prompt book development, blocking notation, and cue documentation to build organization and production literacy skills
- Guided students in analyzing how technical elements support storytelling and contribute to cohesive theatrical productions
- Established a structured, safety-conscious classroom environment emphasizing teamwork, communication, and responsible use of theatre equipment

► Student Intern Performance Space Technician

Fall 2025

- Texas Educational Theatre Association
- Assistant Technical Director
 - Engineered and operated live sound for performances utilizing 15+ microphones (bodypack and handheld systems).

Fall 2024

- Texas Educational Theatre Association
- Programmed and recorded 50 lighting looks within a 2-hour window, under festival conditions
- Assisted with Load-in and Strike of the Performance Space

► Summer High School Theatre Workshop 2025

- Sound
 - Mentored seven high school students through hands-on sound designs for three One Act Plays, promoting collaboration and problem-solving.

2024

- Lighting and Sound
 - Mentored nine high school students through hands-on lighting and sound designs for three One Act Plays in two weeks, promoting collaboration and problem-solving.

GEORGE STEPHENS
